Barrington Windows provide the structural integrity and pleasing aesthetics of more expensive windows while providing you more affordability.

1. Heavy Duty dual vent locks provide fresh air and allow the window to remain partially open.
2. Low profile tilt latches are attractive and easy to use.

Heavy duty, self-aligning lock tightly secures sashes. Metal reinforcement at lock area provides extra strength.

Curved exterior of frame gives the Barrington Window a unique and aesthetically pleasing appearance.

1. **Fusion-Welded Frame and Sash.** Provide maximum weather protection and improve structural integrity.
 2. **Multi-chambered frames with heavy gauge vinyl walls.** Provide superior strength and increased thermal performance.
 3. **One-Piece Telescoping Sloped Sill.** Creates strong bond between sill and jamb for maximum weather protection.
 4. **Soft-Lite vinyl.** Highest quality PVC vinyl stands up to the weather, wherever you live, for a lifetime.
 5. **7/8" insulated glass.** Saves energy year 'round and reduces outside noise.
 6. **"Warm edge" spacer technology.** One piece channel that reduces thermal conduction and condensation around glass perimeter.
- **Double weather stripping.** Surrounds sash perimeter to provide maximum weather protection.
 - **Constant Force Balance.** Provides smooth, easy operation. Never needs lubrication or adjustment. Corrosion proof.
 - **Glass Option.** High Performance, Low-E glass with Argon gas fill to further enhance energy savings and help protect against damaging UV rays.
 - **Accessory groove frames.** Provide multi-window design variations.
 - **Maintenance-Free.** Will not rot, chip, peel, need scraping or painting.
 - **Three Weather Seals on sill.** Provide extra weather protection and energy efficiency.
